## PROFESSIONAL EXPERIENCE

Honeywell, Atlanta, Georgia

*Software Engineer II | February 6, 2023 - Present*

- Provisioned infrastructure and set up virtual machines for production environments.
- Automated routine tasks with Ansible and Bash scripts, storing scripts in GitHub.
- Developed Terraform scripts to provision infrastructure on Azure and GCP.
- Created and maintained detailed documentation for newly developed tasks, sharing knowledge with the team.
- Monitored system performance using Grafana, setting up alerts for proactive issue resolution.
- Provided customer support by handling tickets raised via GTAC.

Honeywell, Atlanta, Georgia

*Software Engineering Intern, Connected Enterprise | May 2022 - August 2022*

- Developed internal cost management applications using React and Azure PostgreSQL.
- Saved \$2,000 per month by identifying and deactivating unused resources in Azure.
- Rewrote existing React code to improve performance and integration with Redux and React Router.

EnterPi Software Solutions, Hyderabad, India

*Application Developer | December 2018 - June 2020*

- Developed web applications using React, Angular, and Oracle SQL, improving efficiency and user experience.
- Collaborated with customers to troubleshoot and resolve app-related issues.
